

Inkjet Posters and Banners INTRODUCTION

Using our Roland and HP High Definition Printers, with the very latest Piezo-Electric Inkjet Technology, we are able to produce Big Images of exceptionally high definition at 720dpi, up to 2380mm wide.

Lamination

Double sided Lamination using 43 micron plastic film is standard on our 180gm Photorealistic Matt paper. This protects the surface and makes the print less vulnerable to scratching. Lamination is not offered on 170gm Photograde Silk or 200gm Photograde Gloss. These materials have a surface effect in their own right which is completely masked by Lamination.

Encapsulation

Encapsulation is similar to Lamination except that the plastic extends beyond the edges of the poster and seals together. This makes the Poster effectively waterproof and extremely durable. Encapsulation is available in three grades: 43 micron, 125 micron and 250 micron per side. Whilst Encapsulation is offered on 170gm Photograde Silk and 200gm Photograde Gloss we would recommend using 180gm Photorealistic Matt paper if Encapsulation is required since it offers cost savings over the other materials and the end result is close to indistinguishable.

Mounting

Mounting Posters on to 10mm Centafoam makes a rigid display which looks particularly appealing and is ideal for use in exhibitions and presentations. **Please Note:** The cost of packing large Foam Mounted Boards to make them safely transportable can be considerable. Please check at the time of ordering.

Roping & Eyeletting

Banners on Banner Vinyl can be eyeletted and roped to allow for external hanging against a building or fence or across a street. The edges are folded and bonded to make double thickness prior to eyeletting for maximum durability.

If your specific requirement is not covered please contact us for a bespoke quote.

This page is printed on 115gm Triple Coated Silk Art Paper

Ink Selection

Dye Based Inks for Indoor Use:

Indoor use Big Image Posters are printed using Dye Based Inks. Dye Based inks produce extremely vibrant colours and are very economically priced. It should be noted that Dye Based Ink posters will fade if exposed to sunlight or any other UV light. Used away from such light their life is virtually unlimited.

Solvent Based Inks for Outdoor Use:

External use Big Image Posters are printed using Solvent Based Inks. Solvent Based Inks are guaranteed stable against UV light exposure for up to three years. In practice the durability may be expected to be in excess of this. Solvent Based Inks are completely waterproof and can be printed directly on to a number of non-porous stocks.

Materials

We offer a range of materials, some are suitable for either Dye or Solvent Based Inks and some are suitable for both.

The material range is:

180gm Photorealistic Matt; 170gm Photograde Silk; 200gm Photograde Gloss; 140gm Wet Strength Paper (Blue Back); Back Lit; Banner Vinyl.

Finishing

We offer several types of finishing for our Posters and Banners. The different types of finish available are described below and the costs can be found within the table for the relevant material on pages 77 and 78. We can also provide accessories to complement some products. These accessories, such as A frames and Pop Up Displays, are detailed on page 80.

Inkjet Printed Exhibition Stand

Our Exhibition Stand is a one piece fold away unit which can be erected or packed away in seconds. The mechanism is designed to provide years of trouble free use.

The stand consists of three main panels and two end panels, which curve around the sides. Each panel is 664mm wide x 2180mm high.

The Carry Case, which doubles as a counter, is also dressed with a graphic. The dimensions for this are 1945mm wide x 770mm high and is included in the graphics price.

The graphics are printed on five pieces of 180gm Photorealistic Matt which are matt laminated to prevent light glare. They are supplied with pre-fixed magnets for easy mounting.

The graphics are priced separately to the frame so that replacement graphics can be ordered at any time.

Please Note: Only half of each side panel is visible when the stand is viewed from the front. Also only the centre (486mm) of the Carry Case graphic can be viewed from the front. We would be pleased to send you templates for your design.

Exhibition Stand			
Item	First		Extra
Exhibition Stand	£1,261.00 each	30,000	n/a
Graphics	£587.80 per set	30,000	£528.30 per set

Inkjet Printed Poster and Banner Accessories

A Boards

These are designed for durable outdoor use. They are lightweight but extremely sturdy. They are available in a range of sizes from A2 to A0. The display area is in portrait format only.

Poster Snaps

These reusable Poster Snaps are designed for suspending large Posters and Drop Banners from ceilings, and are great if floor space is at a premium. They are available to accommodate A2 (420mm), A1 (594mm) and A0 (840mm).

Telescopic Banner Stands

Our Banner Stands extend to 2 metres high, and automatically roll up to be stored or transported easily. They can be used again and again.

They are designed to accommodate our 840mm width Banners. Just simply order an 840mm x 2 metre Banner to fit this high impact, affordable stand.

A Board

Item	Cost (each)
A2 594mm x 420mm	£103.13
A1 840mm x 594mm	£131.25
A0 1188mm x 840mm	£187.50

Poster Snaps

Item	Cost (each)
A2 594mm x 420mm	£12.20
A1 840mm x 594mm	£15.38
A0 1188mm x 840mm	£17.13

Banner rolls up for easy storage and transportation

Telescopic Banner Stands

Size	Cost
840mm Wide	£78.75 each

Canvas Prints Standard and Bespoke

We have invested in the technology required to ensure that our Canvas Prints are of the ultimate quality available. The material used is 350gm polycotton canvas. We use Solvent Based Inks to ensure print colour stability for an extended period. Indeed we are so confident in the longevity of our Canvas Prints that we offer a lifetime (75 years +) guarantee against fade.

Our frames are deep kiln dried redwood produced from FSC forests. Canvas is stretched to optimum tension to completely obviate the need for later re-tensioning.

Edge Detail

Printed canvas extends around the sides of the frame. This means that the image can either continue to bleed or be mirrored depending on the subject matter. Alternatively, we can leave the sides unprinted (white) or print the sides any other colour, see below. There is no cost difference whichever edge detail is chosen.

Hanging

Our prints are provided with easy hang fittings which allow the print to be mounted completely flush to the wall.

Image continuing around sides

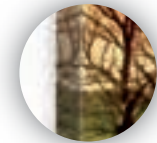

Image to the edge with sides mirrored

Image to the edge with white sides

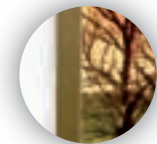

Image to the edge with coloured sides

Bespoke Sized Canvas

Our unique production system means we are able to produce Canvas Prints of any size, from a minimum of 20cm in either direction, to a maximum of 150cm, again in either direction. If your requirement is for a print outside these parameters please request a quote.

Pricing Your Print

Area of Print = Width (cm) x Length (cm) = A

E.g. For a 40cm x 40cm print - A = 1600, So the Multiplication Factor is 0.036

This means the cost of your print is: 1600 x 0.036 (+ £10.00 setup) = **£67.60 + VAT**

Number of Canvas Prints	Two Prints of the same size	Three Prints of the same size	Four or more Prints of the same size
Discount	-10%	-15%	-20%

Bespoke Canvas		
Setup	Area (A)	Multiplication Factor
£10.00 Per Print	Less than 1,900cm ²	0.036
	1,901cm ² - 4,000cm ²	0.030
	4,001cm ² - 6,000cm ²	0.025
	6,001cm ² - 8,000cm ²	0.019
	8,001cm ² - 13,000cm ²	0.015
	Greater than 13,000cm ²	0.011

Full Colour Paper Carrier Bags

It seems you can't open a newspaper these days without reading about the damage caused by Plastic Bags. Our environmentally friendly solution not only looks the business, it speaks volumes for your company's green credentials.

They are printed in Full Colour on tough 200gm Silk Paper and can be Gloss or Matt Laminated. The base and cord panels are reinforced for maximum durability. They are available in three practical sizes. Our Carrier Bags can be printed on every side and come ready to use with a choice of Blue, Red, Green, White or Black Cords.

Type A

450mm wide x 350mm deep with a 100mm gusset.

Type B

550mm wide x 400mm deep with a 125mm gusset.

Type C

665mm wide x 500mm deep with a 125mm gusset.

Please note: If the design of your Paper Carrier Bag means colour extends across the fold we strongly recommend lamination to minimise the risk of cracking on the fold.

Carrier Bags

Carrier	100	250	500	+500 / each
Type A	£960.00	£1,180.00	£1,765.00	£2.82
Type B	£1,025.00	£1,262.50	£1,890.00	£3.02
Type C	£1,095.00	£1,390.00	£2,080.00	£3.33
