

# Playing Cards

We are now able to produce packs of Playing Cards in quantities which were previously completely cost prohibitive.

Playing Cards are an excellent promotional product because of their longevity.

## Metalised Core

Our packs are litho printed in Full Colour on 300gm Solar Block Card. This unique material has a metallic core to prevent any possibility of show through. The card we use meets the exacting requirements of gaming authorities worldwide. The printed Cards are sealer varnished to ensure exceptional quality and playability.

Our Playing Cards are standard poker card size 89mm x 63mm (3.5" x 2.5") with 3mm Round Corners. Packs consist of 54 cards.

## Personalisation

We are able to supply Playing Cards personalised on one side (the reverse being the suits of a standard set of Playing Cards). Alternatively, Playing Cards can be fully personalised on both sides, giving scope for a completely new game or a different use entirely.

Metalised core eliminates show through.

# Playing Cards Boxes

From Revision Cards to Drug Awareness Cards; Students Pocket Survival Guides to Bus Timetables; Places to Stay in the Lake District to Pub Crawls in Cardiff, what you can do with Personalised Playing Cards really is as great as your own imagination!

We are able to supply the card faces - clubs, spades, picture cards, etc. as EPS files so that they can be worked into your own artwork. The EPS files are released after you order and you would need to sign a one time use declaration form.

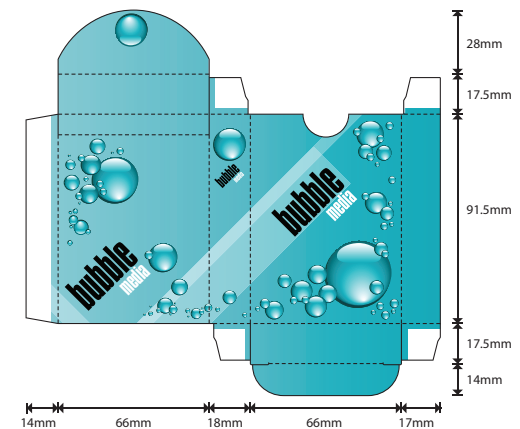

As standard our Playing Cards are supplied in a plain red box. See opposite for details of Personalised Boxes.

## Personalised Playing Card Boxes

You can greatly increase the appeal of your Pack of Cards by having them packed in your own Fully Personalised Box.

**Please Note:** These prices are only valid when Boxes are bought as part of a Playing Card order. Boxes on this page cannot be bought separately. Our Box type B1 may be better value for larger quantities of Boxes, see page 48.

Where colour extends across folds we strongly recommend lamination to minimise the risk of cracking on the fold.
